## PROJECTS

March 2022 – Present

### Library Management System using Python Programming

Technology: Python, SQLite

Software: Jupyter, SQLite

#### Project Description

- The project titled Library Management System is Library Management software for monitoring and controlling the transactions in a library.
- The project "Library Management System" is developed in python which mainly focuses on basic operations in a library like adding new books, and updating new information, searching books and members and return books.

#### Proposed Solution

Through our software user can add books, search books, renewal, update information, edit information, and return books in quick time. Our proposed system has the following advantages.

1. User friendly interface
2. Fast access to database
3. Less error
4. More Storage Capacity
5. Search facility
6. Look and Feel Environment
7. Quick transaction

All the manual difficulties in managing the Library have been rectified by implementing computerization. Increased member engagement, Easily accessible from anywhere and any time, Reliable and secure operations, Review and tracking of the library functions.

## CERTIFICATIONS

- Python Course From Basic to Advance on **Udemy** (2022)
- Object Oriented Programming using Python on **EBOX** (2021)

## AREA OF INTREST

Playing Football and watching movies.

## PREFERENCE FOR JOB LOCATION

Bangalore, Noida, Gurugram.

## EDUCATION

2019-2023

### Bachelor Of Technology

Lovely Professional University.  
Punjab

2017-2019

### Intermediate of Science

Sanskruithi Global School  
Visakhapatnam

2017

### Matriculation

Sanskruithi Global School  
Visakhapatnam

## TECHNICAL SKILLS

### Programming Languages

Python Programming

### Operating Systems

Windows

### Web Technologies

SQLite and MySQL

### Software

PyCharm, Jupyter, IntelliJ

## LANGUAGES

English, Hindi, Telugu
